-2-

- The marking system of the aircraft is not known.
- (2) Landing beacon.
 - (3) According to previous reports, the Adcock DF station of the airfield is located in the southern section of the landing field. It is improbable that an Adcock DF station is set up in the flying lane.
 - (4) For photographs, see Annex 1. According to these photographs, it is a landing beacon. For antenna system and the guy wires of antenna mast, see Annex 2. The mast is 18 meters high. For location of beacon, see Annex 3.

3 Annexes: One set of 3 photographs and
two sketches on ditto.
